

# PALLETFORCE Customer tracking

**As our customer you can easily track your consignments using our iPhone app.**

The Palletforce pallet tracking app works on the iPhone, iPad and iPod touch, meaning you can stay up-to-date with your delivery wherever you are.

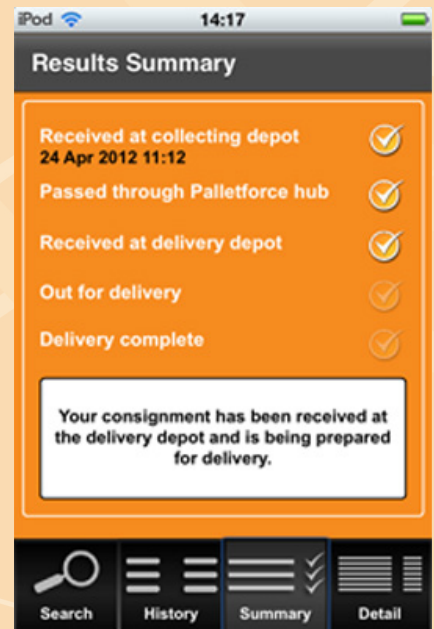

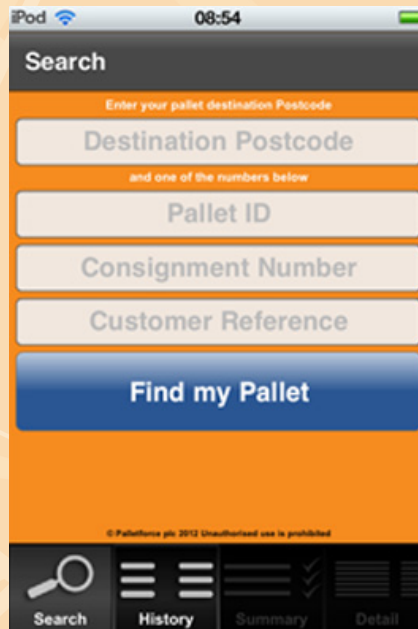

**You only need to know the delivery postcode, and one of the following identifying numbers: tracking number, consignment number or your own customer reference.**

The app shows the latest tracking point and will also indicate a successful delivery.

It uses real-time information so as soon as a new tracking event or POD is created it will be visible in the app.

The app also remembers the last ten searches so you can monitor the progress of your consignments from collection to delivery.

You do not need to register to use the app, which has been designed to be easy to use and displays tracking information in an easily understandable way.

If you have an iPhone, iPad or iPod Touch you can download the app by searching for '**Palletforce Pallet Tracking**' in the iTunes app store.
